

Sravan Jaggala

BI Developer / Analytics Engineer

Chicago, IL · (331) 275-9624 · sravan.jaggala@outlook.com · [linkedin.com/in/sravan-jaggala](https://www.linkedin.com/in/sravan-jaggala) · github.com/sjaggala

SUMMARY

Business Intelligence engineer/architect with ~7 years delivering client-facing Power BI — semantic modeling, governance, embedded analytics, custom visuals, and CI/CD — now extending into AI-driven, conversational BI. Completing an M.S. in Business Analytics (STEM) at the University of Illinois Chicago, with a track record of leading delivery teams for enterprise clients.

EXPERIENCE

Mouri Tech — Senior Technical Consultant

Apr 2023 – Dec 2025

Hyderabad, India

- Led end-to-end delivery of enterprise Power BI solutions; functioned as an Associate Manager in the final year, leading a team of five analysts.
- Built Power BI CI/CD pipelines on Azure DevOps with PowerShell and the REST APIs, cutting manual deployment effort by ~80%.
- Re-architected centralized semantic models with row-level security and incremental refresh, reducing dataset refresh from 2.5 hours to 7 minutes.
- Trained Power BI Q&A (natural-language) models and built prompt-driven visualization interfaces with AI/ML engineers, increasing self-service adoption.
- Developed custom Power BI visuals in React & TypeScript, deployed across the organization.

Blue Yonder — Business Consultant

Feb 2022 – Dec 2022

Hyderabad, India

- Embedded Power BI into external Azure applications using the REST APIs and app registrations.
- Partnered with .NET developers to deliver secure, integrated analytics solutions.

HCL Technologies — Senior Software Engineer

Dec 2020 – Jan 2022

Haryana, India

- Migrated legacy Oracle BIEE reporting to Power BI and trained business teams on the new workflows.
- Built governance dashboards with the Power BI REST APIs, automated via PowerShell.

Microsoft — Technical Advisor (via LTIMindtree)

Apr 2019 – Sep 2020

Hyderabad, India

- Led a five-engineer Power BI support team, resolving advanced development and advisory cases.
- Collaborated with Microsoft product teams on complex technical issues and feature feedback.

Ness Technologies — Software Engineer Trainee

Feb 2016 – Jun 2017

Bangalore, India

- Developed and enhanced Power BI reports alongside senior engineers.

SKILLS

BI & Visualization: Power BI, Tableau, Microsoft Fabric, Excel, Paginated / SSRS

Databases: SQL Server, Oracle, Snowflake, BigQuery, SAP HANA, T-SQL

Cloud & DevOps: Azure, Azure DevOps, Git, Power BI REST APIs, CI/CD, Power Automate

Semantic Modeling: DAX, Power Query, Tabular Editor, DAX Studio, ALM Toolkit

Languages & Code: Python, R, TypeScript, React, PowerShell

AI / Generative BI: Power BI Q&A / NLP models, prompt-driven visualization interfaces

EDUCATION

M.S., Business Analytics · Jan 2026 – Dec 2026

RECOGNITION

- Employee of the Quarter, Mouri Tech · 2025

University of Illinois Chicago — STEM-designated

B.Tech, Computer Science & Engineering · 2015

GATES Institute of Technology (JNTU Anantapur)

- GEM & SPOT Awards, Mouri Tech · 2024

- Top Innovator Award, Blue Yonder · 2022
